

## **POSITION DESCRIPTION**

### **Apprentice Electrician**

Build a career in the Electrical industry! Solar Mad are seeking an Apprentice Electrician to join our team and undertake a fully supported apprenticeship leading to Certificate III in Electrotechnology Electrician by a registered training organisation. The successful applicant can be someone who is keen to enter the workforce or someone who is currently completing their qualification as an electrical apprentice.

#### **About Solar Mad**

Solar Mad is your original & trusted solar installer. Established in 2010 the business has expanded to offer an Electrical contracting service including residential, commercial and agriculture. Along with operating an Electronic Retail store which is an Authorised Jaycar stockist. At Solar Mad, we strive to provide the best quality service and expect a high level of dedication and professionalism from our staff. Our culture at Solar Mad is defined by clear communication, honesty, commitment, positivity and inclusion.

#### **About the Role**

Full time – 38 hours per week. Responsible for a variety of jobs- installing, testing new systems, diagnosing & repairing faults, performing maintenance on electrical networks, working with data cables, circuits, wiring or appliances. Our work is diverse therefore training will be offered in all areas of the electrical trade. You could be working on residential, commercial, industrial or agricultural sites and not just with solar. This is a fast paced and interesting role and you are guaranteed to learn a lot about all aspects of electrical trades. You'll be fully supported and guided by our entire electrical team and work alongside other apprentices and fully qualified electricians. Which will lead to a Certificate III in Electrotechnology Electrician.

#### **About You**

To be successful for this role, the ideal candidate must possess the following attributes;

- Align with our culture and demonstrate those qualities
- Dedicated and committed to grow and learn
- Possess good work ethic – punctual, reliable
- Willingness to listen and learn
- Keen interest for the Electrical / Solar Industry
- Ability to work well within a team
- Good communication skills, present well
- Commonsense, good manners and neat presentation are also traits we look for to ensure we offer our clients a quality service.
- Mathematical aptitude to successfully complete the electrical trade course

#### **Criteria**

- Strong adherence to our Work, Health & Safety policies
- Current drivers license
- Have successfully completed Year 10
- Construction Industry White Card (desirable but not essential to be considered for the role, as you will obtain this during employment with us)
- Currently enrolled in TAFE or have the desire to become enrolled

#### **How To Apply**

To express your interest in this role please include your resume and a short cover letter telling us about yourself and why you are the ideal person for this role to [sales@solarmad.com.au](mailto:sales@solarmad.com.au) This position is for immediate start, so apply today!
